Tony Velardo
New England TeleData
500 Washington Street
Norwood, MA 02062

Dear Tony:

I wanted to write to you and New England Teledata to thank you for the wonderful telephone system that you sold us. I also wanted to tell you how much I appreciate the outstanding service that you have provided my company over the years.

I have dealt with so many companies while running my company for the last 13 years and I can honestly say that you have by far been the best to work with. I have never worked with a company so committed to customer satisfaction as you and all those that I have worked with from New England Teledata. The Cat6 network that you installed has worked perfectly and the way that you organized my telephone and network room is simply a work of art. You and your company have continually gone above and beyond all expectations.

My telephone system has been flawless and I would never consider purchasing equipment as I expand from any other firm.

Please feel free to use me as a customer reference anytime. I would be more than happy to help you grow your wonderful business.

Sincerely,

A handwritten signature in black ink, appearing to read "Donald L. Brown".
