

....St. Mary of the Hills School and Parish has always been impressed with the level of professionalism and outstanding knowledge of New England Teledata ...specifically, Tony Velardo. When the time came to make a decision to update our telephone system at our school, Tony immediately understood our communication needs and formulated an outstanding telephone system within our budget!

Tony's prompt attention to detail is evident in his manner of service. Any questions and/or concerns are quickly resolved when presented to Tony... in large part to Tony's knowledge and experience but also by Tony's reassuring and genuine personality. St. Mary of the Hills School and Parish would highly recommend New England Teledata to any business or school!
