Re: Tony Velardo/New England Teledata

To Whom It May Concern:

I would like to take this opportunity to communicate my business and personal relationship with New England Teledata and Tony Velardo. I first came to meet Tony in 1992 when I purchased a new manufacturing facility in Avon, MA. He was working with another company at the time, but proceeded to service our needs in an efficient and cost savings manner. From that time on, any new communication needs that arose, we would call Tony and he always serviced us in a quick timeframe.

Stergis Windows and Doors has since moved to a different location and many times we have had to call New England Teledata for upgrades and service and Tony is always quick to respond. Tony, not only personally services us, but does with a smile and appreciation. I would not hesitate to recommend New England Teledata for any size application you may need. It is a pleasure to work with Tony and in these times it is certainly difficult to find a personable and reliable technician like him.

Sincerely,

  
Augustus J. Stergis  
President
